You should carefully consider each of the following risk factors and all other information set forth in this Letter of Offer, including in "Our Business", "Industry Overview", "Management's Discussion and Analysis of Financial Condition and Results of Operations", and "Financial Statements" before making an investment in our Equity Shares.

The risks and uncertainties described below are not the only risks that we currently face. Additional risks and uncertainties not presently known to us or that we currently believe to be immaterial may also adversely affect our business, financial condition, results of operations and cash flows. If any or some combination of the following risks, or other risks that are not currently known or believed to be adverse, actually occur, our business, financial condition and results of operations could suffer, the trading price of, and the value of your investment in, our Equity Shares could decline and you may lose all or part of your investment. You should consult your tax, financial and legal advisors about the consequences of an investment in our Equity Shares and its impact on you.

This Letter of Offer also contains forward-looking statements that involve risks and uncertainties. Our results could differ materially from such forward-looking statements as a result of certain factors, including the considerations described below and elsewhere in this Letter of Offer.

Unless specified or quantified in the relevant risk factors below, we are not in a position to quantify the financial or other implications of any of the risks described in this section. Unless the context otherwise requires, in this section, reference to "we", "us" "our" refers to our Company.

INTERNAL RISK FACTORS

BUSINESS RELATED RISK

- 1. Our business involves trading of the hazardous, corrosive and flammable industrial chemicals, which require expert handling and storage, as applicable and which entails significant risks and could also result in enhanced obligations. Any accidents may result in loss of life or property and disrupt our operations which may have an adverse effect on our results of operation, cash flows and financial condition.**

The industrial chemicals we use are hazardous, corrosive, and flammable and require expert handling and storage, as applicable. Any failure of our control systems, mishandling of hazardous chemicals, leakages, explosion or any adverse incident related to the use of these chemicals or otherwise during the transportation, handling or storage of products and certain raw materials, may cause industrial accidents, fire, loss of human life and property, damage to our and third-party property and / or environmental damage, require shutdown of our business and expose us to civil or criminal liability.

While our Company believes that it has necessary controls and processes in place, any failure of such systems, mishandling of hazardous chemicals or any adverse incident related to the use of these chemicals or otherwise during the time of process may cause industrial accidents, fire, loss of human life, damage to our and third-party property and, or, environmental damage. However, the occurrence of any such event in the future may adversely affect our reputation and may also result in a loss of life or property which in turn could lead to disruption of our operations, resulting in an

adverse effect on our results of operations, cash flows, and financial condition. The improper storage or mishandling of our products during transit may compromise the quality of the products being delivered to our customers and can potentially expose us to liabilities and claims which could adversely affect our brand image and reputation and have a material and adverse effect on our business prospects, results of operations and financial condition.

2. If we are unable to maintain and enhance our brand, the sales of our products may suffer which would have a material adverse effect on our business operations.

Over the years, our company has significantly contributed to the success of our business and maintaining and enhancing our brand and may require us to make substantial investments in areas such marketing and employee training, and these investments may not be successful. Given the kind of competition, we anticipate that maintaining and enhancing our brand may become increasingly difficult and expensive. Our success will depend largely on our ability to maintain, anticipate, gauge and respond in a timely manner to consumer demands, and to continue to provide quality chemical products and services. This will attract our prospective consumers and develop faith for our brand. If our Company is unable to maintain the quality of its products, it could lead to a negative publicity of our brand name and image in the market. Such negative publicity of our brand name could adversely affect our profitability and business operations.

3. We derive a significant part of our revenue from major customers and we do not have long term contracts with all of these customers. If one or more of such customers choose not to source their requirements from us or to terminate our long-term contracts, our business, financial position and results of operations may be adversely affected.

Our customer base currently comprises a host of domestic companies. During the Fiscal 2024, 2023 and 2022, our top 10 customers contributed approximately 87.82%, 100% and 99.09% of our revenue from operations respectively. We expect that we will continue to be reliant on our major customers in future. Accordingly, any failure to retain these customers and/or negotiate on terms that are commercially viable, with these select customers, could adversely affect our business, financial condition and results of operations. In addition, any defaults or delays in payments by a major customer or the insolvency or financial distress by a major customer may have an adverse effect on business, financial position and results of operations. There are also a number of factors, other than our performance that could cause the loss of a customer, which include those customers who may demand price reductions, set-off any payment obligations, require indemnification for themselves or their affiliates, or replace their existing products with alternative products, any of which may have an adverse effect on our business, financial condition, results of operations and prospects. We typically do not enter into long-term agreements with majority of our customers, and an inability to continue to engage with them would have a material adverse effect on our business, results of operations and financial condition.

4. We are subject to strict quality requirements and the success and wide acceptability of our products is largely dependent upon our quality controls and standards. Any failure to comply with quality standards may adversely affect our business prospects and financial performance, including cancellation of existing and future orders.

All our products are subject to stringent quality standards and specifications as specified by our customers. Given the nature of our products and the sector in which we operate, we believe that our customers have high standards for product quality and delivery schedules. Adherence to quality

standards is a critical factor as a defect in intermediates manufactured or failure to comply with the specifications of our customers may, in turn, lead to the manufacture of faulty end-products. This may lead to cancellation of supply orders or non-renewal of agreements by our customers. As a result, cancellation of the order, loss of customers, rejection of the product, which will require us to incur additional cost to replace the rejected product, all or any of which could have adverse effect on our business and financial condition. Additionally, it could expose us to monetary liability and/ or litigation.

5. The top -level management of the company is associated with the company from less than 2 years.

In the year 2020, our company was acquired by its current promoters from its former promoters pursuant to a Share Purchase Agreement dated 12th March, 2020 and an Open Offer from 05th June, 2020 to 18th June, 2020 (both dates inclusive). Consequently, the management of the company has been changed to its current. Further, our Managing Director and Chief Financial Officer is associated with our company from less than two years. For more details on the top management, Key Management Personnel and their appointment, please refer to chapter “Our Management” beginning on page 74.

6. We face significant competition and our business, financial condition, results of operations, and cash flows could be materially harmed if we are unable to compete effectively.

Our competitors may have significantly greater financial, technical and marketing resources and might be generating greater revenues. Further, some of them have a pan-India presence resulting in better brand recall across India and have long-standing relationships with their clients within and outside our country and are therefore the preferred service providers for many of the clients. Our Company cannot assure its investors that it will be able to retain its clients or attract new clients while competing successfully against such competitors. Moreover, the Company’s ability to compete also depends on a number of factors beyond its control, including the ability of its competitors to attract, train, motivate and retain highly skilled technical people, the price at which the competitors offer comparable services and the extent of competitors' responsiveness to client needs. Its failure to remain competitive would have a material adverse effect on its business, financial condition and results of operations of our company on a consolidated basis, and could cause the price of the Equity Shares to decline.

7. Our Registered office is not owned by us.

Our Registered office has been leased the details of which are set forth below:

Add of the Registered Office	Name of the party	Date of the Agreement	Lease period	Lease Cost
Office No 53, 6 th Floor, Sanidhya Complex, Near Devnandan Mall, Opp. Sanyas Ashram, Nehru Bridge, Ashram Road, Ellis Bridge, Ahmedabad, Ahmadabad City, Gujarat, India, 380006	Mr. Dinesh Singh	13.12.2024	13.12.2024 to 12.12.2027	Rs. 15,000/- p.m.

In the event, the above lease is not renewed, we may be required to shift our Office to a new location and there can be no assurance that the arrangement our Company will enter into in respect of the new Office would be on such terms and conditions as the present one.

8. We are dependent on third party transportation and logistics service providers. Any increase in the charges of these entities could adversely affect our business, results of operations and financial condition.

We rely on third party transportation and logistics providers for supply of our products to our customers. We do not have any long-term contractual arrangements with such third-party transportation and logistics providers and engage their services, as and when required, on spot basis. Disruptions of logistics could impair our ability to procure raw materials and/or deliver our products on time, which could materially and adversely affect our business, financial condition and results of operations.

9. We may face several risks associated with the setting up of our new warehouses which could hamper our growth and consequently our business and financial condition.

A significant part of the Net Proceeds from the Issue is allocated for capital expenditure for setting up new warehouse. When setting up new warehouse, we may encounter cost overruns or delays for various reasons including delays in construction, delay in receiving government approvals and non-delivery of equipment by suppliers. If the warehouse proposed to be set up is not completed in a timely manner, or at all, our business and results of operations may be adversely affected. Further, our budgeted resources may prove insufficient to meet our requirements which could drain our internal accruals or compel us to raise additional capital which may not be available on terms favourable to us or at all.

In addition:

- we may not be able to recruit skilled and experienced manpower to set-up and operate our new warehouses in a timely manner; and
- the warehouse(s) we set-up may not achieve anticipated levels of profitability.

10. We have experienced negative cash flows in previous years. Any operating losses or negative cash flows in the future could adversely affect our results of operations and financial conditions.

The detailed break up of cash flows as per audited financials is summarized in below mentioned table and our Company has reported negative cash flow in certain financial years and which could affect our business and growth:

(Amount in Lakhs)			
Particulars	31.03.2024	31.03.2023	31.03.2022
Net Cash flow from Operating activities	(190.82)	92.51	14.28
Net Cash Flow from investing activities	(0.26)	(20.67)	0.61
Net Cash Flow from Financing activities	0.00	(1.13)	(0.24)
Net Cash Flow for the Year	(199.08)	70.71	14.65

11. Our Company has not taken insurance which may expose it from potential losses to which we may be subject to risk and this may have a material effect on our business and financial condition.

Our Company has not taken insurance policy including but not limited to its employees or Directors. Any unforeseen situation or any liability will not compensate due to absence of Insurance policy. Further, our business involves risks which may adversely affect our profitability, including failure of systems and employee frauds. We cannot assure you that the operation of our business will not be affected by any of the incidents listed above or by other factors. In addition, in the future, we may not be able to maintain insurance of the types or at levels which we deem necessary or adequate or at rates which we consider reasonable. The occurrence of an event for which we are not adequately or sufficiently insured or the successful assertion of one or more large claims against us that exceed available insurance coverage, or changes in our insurance policies (including premium increases or the imposition of large deductible or coinsurance requirements), could have an effect on our business, results of operations, financial condition and cash flows.

12. We don't have any our own manufacturing facility; all the manufacturing is done by third party company and we have not entered into any long-term agreements with our manufacturer for supply of our products and accordingly we may face disruptions in supply from our current third party/group company manufacturer/suppliers.

We do not have any production facilities or production lines of our own and we have to outsource the production of all products to external manufacturers. However, our control over these external manufacturers in respect of their production process and our products is to some extent limited. We cannot assure you that (i) there will not be any unexpected interruption of their supply of products to us or any increase in the production costs for any reason beyond our control or expectation, such as introduction of new regulatory requirements, loss of their certifications or licences, power interruptions, fires or other events; or (ii) the products provided to us by them can meet our quality requirements. Any such problems in relation to the supply of our products by external manufacturers could have a material adverse impact on the Product Development Segment of our business.

13. Any disruption in our information technology systems may adversely affect our business, results of operations and prospects.

In today's digital world like any other organization, we also depend extensively on the capacity and reliability of our information technology systems, which are subject to damage or incapacitation by natural disasters, human error, power loss, sabotage, computer viruses, hacking, acts of terrorism and similar events or the loss of support services from third parties. Considering the nature of our business and the industry in which we operate, it is imperative for us to have a robust information technology platform. If our data capturing, processing and sharing cannot be integrated and/or we experience any defect or disruption in the use of, or damage to, our information technology systems, it may adversely affect our operations and thereby our business and financial condition.

14. If we are unable to source business opportunities effectively, we may not achieve our financial objectives.

Our ability to achieve our financial objectives will depend on our ability to identify, evaluate and accomplish business opportunities. To grow our business, we will need to hire, train, supervise and manage new employees, expand our sales channel and to implement systems capable of effectively accommodating our growth. However, we cannot assure that any such employees or franchisee

partners will contribute to the success of our business or that we will implement such systems effectively. Our failure to source business opportunities effectively could have a material adverse effect on our business, financial condition and results of operations. It is also possible that the strategies used by us in the future may be different from those presently in use. No assurance can be given that our analysis of market conditions and other data or the strategies that we may use in future to use will be successful under various market conditions.

15. Failure in maintaining the requisite standard for storage of products warehoused with us could have negative impact on our business.

We would be required to maintain the requisite standard for storage of the products that we warehouse. We warehouses adhere to prescribed regulatory standards and deploying data loggers. However, if we consistently, or frequently, fail to maintain the prescribed and / or requisite standards at our warehouses, we may be unable to retain our customers which may have an adverse impact on our business, growth prospects and our financial results. Further, in the event that we fail to maintain the prescribed and / or requisite standards of storage or if the integrity of products that are warehoused or is compromised, we could be in breach of our contractual obligations to our customers which could lead, amongst others, to monetary damages.

16. We require a number of approvals, NOCs, License's, registrations and permits in the ordinary course of our business. Any failure or delay in obtaining the same in a timely manner may adversely affect our operations.

We may require several statutory and regulatory permits, licenses and approvals in the ordinary course of our business, some of which our Company has either received, applied for or is in the process of application. Many of these approvals are granted for fixed periods of time and need renewal from time to time. There can be no assurance that the relevant authorities will issue any of such permits or approvals in the timeframe anticipated by us or at all. Any failure by us to apply in time, to renew, maintain or obtain the required permits, licenses or approvals, or the cancellation, suspension, delay in issuance or revocation of any of the permits, licenses or approvals may result in the interruption of our operations and may have a material adverse effect on the business.

17. We are susceptible to risks relating to interruptions and disruptions at warehousing facility.

The operations at our warehousing facility are also subject to various operating risks such as the breakdown or failure of equipment, power supply or processes, natural disasters and accidents. Any interruption of our operations at warehousing facility could significantly reduce our ability to manage and carry out our business operations. If prolonged, such interruption could impact our ability to service our clients and our business, financial condition and results of operations may be materially and adversely affected.

18. We require high working capital for our smooth day to day operations of business and any discontinuance or our inability to acquire adequate working capital timely and on favourable terms may have an adverse effect on our operations, profitability and growth prospects.

Our business demands substantial funds towards working capital requirements. In case there are insufficient cash flows to meet our working capital requirement or we are unable to arrange the same from other sources or there are delays in disbursement of arranged funds, or we are unable to procure

funds on favourable terms, it may result into our inability to finance our working capital needs on a timely basis which may have an adverse effect on our operations, profitability and growth prospects.

19. The cost of implementing new technologies for our operations could be significant and could adversely affect our results of operations, cash flows and financial condition.

Our future success will depend in part on our ability to respond to technological advances and emerging standards and practices on a cost effective and timely basis. We cannot assure you that we will be able to successfully make timely and cost-effective enhancements and additions to the technology used in our operational platform, keep up with technological improvements in order to meet our customers' needs or that the technology developed by others will not render our services less competitive or attractive. Our failure to successfully adopt such technologies in a cost effective and a timely manner could increase our costs and lead to us being less competitive in terms of our prices or quality of services we provide. Further, implementation of new or upgraded technology may not be cost effective, which may adversely affect our business, results of operations and financial condition.

20. Improper handling of goods at our facilities could damage our reputation and have an adverse effect on our business, results of operations and financial condition.

We remain susceptible to risks associated with the improper handling of goods at our facilities. Any shortcoming due to fraudulent activities, theft, negligence, human error, or otherwise by our labour force could damage our reputation, adversely affecting our business, financial condition and results of operations. Further, such activities may also result in legal proceedings being initiated against us, irrespective of whether such allegations have any factual basis.

21. Changing regulations in India could lead to new compliance requirements that are uncertain.

The regulatory environment in which we, and our key customers, operate is evolving and is subject to change. The Government of India may implement new laws or other regulations that could affect the logistics industry or the sectors we serve, which could lead to additional compliance requirements. Additional compliance requirements could increase our costs or otherwise adversely affect our business, financial condition and results of operations. Further, the manner in which additional requirements will be enforced or interpreted can lead to uncertainty in our operations and could adversely affect our operations.

22. Political instability or a change in economic liberalization and deregulation policies could seriously harm business and economic conditions in India generally and our business in particular.

The Government of India has traditionally exercised and continues to exercise influence over many aspects of the economy. Our business and the market price and liquidity of our Equity Shares may be affected by interest rates, changes in Government policy, taxation, social and civil unrest and other political, economic or other developments in or affecting India. The rate of economic liberalization could change, and specific laws and policies affecting the information technology sector, foreign investment and other matters affecting investment in our securities could change as well. Any significant change in such liberalization and deregulation policies could adversely affect business and economic conditions in India.

23. We cannot guarantee the accuracy or completeness of facts and other statistics with respect to India, the Indian economy and industry contained in the Letter of Offer.

While facts and other statistics in the Letter of Offer relating to India, the Indian economy and industry in which we operate has been based on various government publications and reports from government agencies that we believe are reliable, we cannot guarantee the quality or reliability of such materials. While we have taken reasonable care in the reproduction of such information, industry facts and other statistics have not been prepared or independently verified by us or any of our respective affiliates or advisors and, therefore we make no representation as to their accuracy or completeness. Due to possibly flawed or ineffective data collection methods or discrepancies between published information and market practice and other problems, the statistics herein may be inaccurate or may not be comparable to statistics produced elsewhere and should not be unduly relied upon. Further, there is no assurance that they are stated or compiled on the same basis or with the same degree of accuracy, as the case may be, elsewhere.

24. Any failure or disruption or change of our information technology systems may adversely impact our business and operations.

We use information technology systems to monitor all aspects of our business and rely significantly on such systems for the efficient operations and the security of our information. Our information technology systems may not always operate without interruption and may encounter temporary abnormality or become obsolete. Further, we cannot assure you that the level of security we presently maintain is adequate or that our systems can withstand intrusions from or prevent improper usage by third parties. We may not always be successful in installing, running and migrating to new software or systems as required for the development of our business. Even if we are successful in this regard, significant capital expenditure may be required, and we may not be able to benefit from the investment immediately. All of these may have a material adverse impact on our operations and profitability.

25. We may not be successful in implementing our business and growth strategies.

The success of our business depends substantially on our ability to implement our business and growth strategies effectively. Even though we have successfully executed our business strategies in the past, there is no guarantee that we can implement the same on time and within the estimated budget going forward, or that we will be able to meet the expectations of our targeted customers. Changes in regulations applicable to us may also make it difficult to implement our business strategies. Further, our growth strategies could place significant demand on our management team and other resources and would require us to continuously develop and improve our operational, financial and other controls, none of which can be assured. Failure to implement our business and growth strategies would have a material adverse effect on our business and results of operations.

26. We have in the past entered into related party transactions and may continue to do so in the future.

Our Company has entered into certain transactions with our related parties including our Promoters, the Promoter Group, our directors and their relatives. Further we have loans taken from promoter and members of promoter group. While we believe that all such transactions have been conducted on the arm's length basis, there can be no assurance that we could not have achieved more favorable terms had such transactions not been entered into with related parties. Furthermore, it is likely that we will enter into related party transactions in the future. There can be no assurance that such

transactions, individually or in the aggregate, will not have an adverse effect on our financial condition and results of operation.

27. Our Promoters and certain of our directors hold Equity Shares in our Company and are therefore interested in our performance in addition to their remuneration and reimbursement of expenses.

Certain of our Directors including our Promoters are interested in our Company, in addition to regular remuneration or benefits and reimbursement of expenses, to the extent of their shareholding in our Company. We cannot assure you that our Promoters will exercise their rights as shareholders to the benefit and best interest of our Company. Our Promoters will continue to exercise significant control over us, including being able to control the composition of our Board of Directors and determine decisions requiring simple or special majority voting of shareholders, and our other shareholders may be unable to affect the outcome of such voting. Our Promoters may take actions with respect to our business which may conflict with the best interests of our Company or that of minority shareholders.

28. Our ability to pay dividends in the future may be affected by any material adverse effect on our future earnings, financial condition or cash flows.

Our ability to pay dividends in future will depend on the earnings, financial condition and capital requirements of our Company. Our business is capital intensive and we may make additional capital expenditure towards acquisition of assets. We may be unable to pay dividends in the near- or medium-term, and our future dividend policy will depend on our capital requirements and financing arrangements in respect of our projects, financial condition and results of operations.

29. As the Equity Shares of our Company are listed on the Stock Exchange, our Company is subject to certain obligations and reporting requirements under the SEBI (LODR) Regulations and comply with other SEBI Regulations. Any non-compliances/delay in complying with such obligations and reporting requirements may render us liable to prosecution and/or penalties.

The Equity Shares of our Company are listed on Stock Exchange, therefore we are subject to the obligations and reporting requirements prescribed under the SEBI (LODR) Regulations, to the extent applicable, and have to adhere to and comply with other applicable Regulations framed by SEBI. Our Company endeavors to comply with all such obligations and reporting requirements, any non-compliance which might have been committed by us, may result into Stock Exchange and/or SEBI imposing penalties, issuing warnings and show cause notices against us and/or taking actions as provided under the SEBI Act and the rules and regulations made there under and applicable SEBI Circulars. Any such adverse regulatory action or development could affect our business reputation, divert management attention, and result in a material adverse effect on our business prospects and financial performance and on the trading price of the Equity Shares.

30. We have not commissioned an industry report for the disclosures made in the section titled 'Industry Overview' and made disclosures on the basis of the data available on the internet and such data has not been independently verified by us.

We have neither commissioned an industry report, nor sought consent from the quoted website source for the disclosures which need to be made in the section titled "Industry Overview" beginning on page 62 of this Letter of Offer. We have made disclosures in the said chapter on the basis of the relevant industry related data available online for which relevant consents have not been obtained.

We have not independently verified such data. We cannot assure you that any assumptions made are correct or will not change and, accordingly, our position in the market may differ from that presented in this Letter of Offer. Further, the industry data mentioned in this Letter of Offer or sources from which the data has been collected are not recommendations to invest in our Company. Accordingly, investors should read the industry related disclosure in this Letter of Offer in this context.

31. Our funding requirements and proposed deployment of the Net Proceeds are based on management estimates and have not been independently appraised and may be subject to change based on various factors, some of which are beyond our control.

Our funding requirements and deployment of the Net Proceeds are based on internal management estimates based on current market conditions, and have not been appraised by any bank or financial institution or other independent agency. Further, in the absence of such independent appraisal, our funding requirements may be subject to change based on various factors which are beyond our control. For details, see “Objects of the Issue” on page 53 of this Letter of Offer.

ISSUE RELATED RISK

32. Failure to exercise or sell the Rights Entitlements will cause the Rights Entitlements to lapse without compensation and result in a dilution of Investor’s shareholding

The Rights Entitlements that are not exercised prior to the end of the Closing Date will expire and become null and void, and Eligible Equity Shareholders will not receive any consideration for them. The proportionate ownership and voting interest in our Company of Eligible Equity Shareholders who fail (or are not able) to exercise their Rights Entitlements will be diluted pursuant to increase in paid up share capital. Even if you elect to sell your unexercised Rights Entitlements, the consideration you receive for them may not be sufficient to fully compensate you for the dilution of your percentage ownership of the equity share capital of our Company that may be caused as a result of the Rights Issue. Renouncees may not be able to apply in case of failure in completion of renunciation through off-market transfer in such a manner that the Rights Entitlements are credited to the Demat Account of the Renouncees prior to the Issue Closing Date. Further, in case, the Rights Entitlements do not get credited in time, in case of On Market Renunciation, such Renouncee will not be able to apply in this Rights Issue with respect to such Rights Entitlements.

33. You may not receive the Equity Shares that you subscribe in the Issue until fifteen days after the date on which this Issue closes, which will subject you to market risk.

The Equity Shares that you subscribe in the Issue may not be credited to your demat account with the depository participants until approximately 15 days from the Issue Closing Date. You can start trading such Equity Shares only after receipt of the listing and trading approval in respect thereof. There can be no assurance that the Equity Shares allocated to you will be credited to your demat account, or that trading in the Equity Shares will commence within the specified time period, subjecting you to market risk for such period.

34. There is no guarantee that our Equity Shares will be listed in a timely manner or at all which may adversely affect the trading price of our Equity Shares.

In accordance with Indian law and practice, final approval for listing and trading of the Equity Shares will not be granted by the Stock Exchange until after those Equity Shares have been issued and

allotted. Approval will require all relevant documents authorizing the issuing of Equity Shares to be submitted. There could be a failure or delay in listing the Equity Shares on Stock Exchange. Any failure or delay in obtaining the approval would restrict your ability to dispose of your Equity Shares. Further, historical trading prices, therefore, may not be indicative of the prices at which the Equity Shares will trade in the future which may adversely impact the ability of our shareholders to sell the Equity Shares or the price at which shareholders may be able to sell their Equity Shares at that point of time.

35. The Issue Price of our Right Equity Shares may not be indicative of the market price of our Equity Shares after the Issue.

The market price of the Equity Shares could be subject to significant fluctuations after the Issue, and may decline below the Issue Price.

There can be no assurance that the Investors will be able to sell their Equity Shares at or above the Issue Price. The factors that could affect our share price are:

- (a) quarterly variations in the rate of growth of our financial indicators such as earnings per share;
- (b) changes in revenue or earnings estimates or publication of research reports by analysts;
- (c) speculation in the press or investment community;
- (d) general market conditions; and
- (e) domestic and international economic, legal and regulatory factors unrelated to our performance.

EXTERNAL RISK FACTORS

36. Any downgrading of India's debt rating by a domestic or international rating agency could adversely affect our business.

There could be a downgrade of India's sovereign debt rating due to various factors, including changes in tax or fiscal policy, or a decline in India's foreign exchange reserves, which are outside our control. Any adverse revisions to India's credit ratings for domestic and international debt by domestic or international rating agencies may adversely impact our ability to raise additional financing, and the interest rates and other commercial terms at which such additional financing is available.

Although economic conditions are different in each country, investors' reactions to developments in one country can have adverse effects on the securities of companies in other countries, including India, which may cause fluctuations in the prices of our Equity Shares. This could have an adverse effect on our business and financial performance, and ability to obtain financing for expenditures.

37. Investing in securities that carry emerging market risks can be affected generally by volatility in the emerging markets.

The markets for securities bearing emerging market risks, such as risks relating to India, are, to varying degrees, influenced by economic and securities market conditions in other emerging market countries. Although economic conditions differ in each country, investors' reactions to developments in one country may affect securities of issuers in other countries, including India. A loss of investor confidence in the financial systems of other emerging markets may cause increased volatility in Indian financial markets and the Indian economy in general.

Any worldwide financial instability could also have a negative impact on the Indian economy, including the movement of exchange rates and interest rates in India, which could adversely affect the Indian financial sector in particular. Any such disruption could have an adverse effect on our Company's business, future financial performance, financial condition and results of operations, and affect the price of the Equity Shares. Accordingly, the price and liquidity of the Equity Shares may be subject to significant fluctuations, which may not necessarily be directly or indirectly related to our financial performance.

38. Political instability or changes in the Government or Government policies could impact the liberalization of the Indian economy and adversely affect economic conditions in India generally.

The performance and growth of our Company is dependent on the health of the Indian economy and more generally the global economy. The economy could be adversely affected by various factors such as political or regulatory action, including adverse changes in liberalization policies, social disturbances, terrorist attacks and other acts of violence or war, natural calamities, interest rates, commodity and energy prices and various other factors. The rate of economic liberalization could change, and specific laws and policies affecting foreign investment, currency exchange rates and other matters affecting investment in India could change as well. As a result, our business and the market price and liquidity of the Equity Shares may be affected by such economic and / or political changes. While the current Government is expected to continue the liberalization of India's economic and financial sectors and deregulation policies, there can be no absolute assurance that such policies will be continued. A significant change in India's economic liberalization and deregulation policies could disrupt business and economic conditions in India generally and specifically have an adverse effect on the operations of our Company.

39. Regional hostilities, terrorist attacks, communal disturbances, civil unrest and other acts of violence or war involving India and other countries may result in a loss of investor confidence and adversely affect our business, prospects, results of operations and financial condition.

Terrorist attacks, civil unrest and other acts of violence or war may negatively affect the Indian markets on which our Equity Shares will trade as well as the worldwide financial markets. The Asian region has from time to time experienced instances of civil unrest and hostilities among neighbouring countries which may persist and occur in the future. Military activity or terrorist attacks in India may result in investor concern about stability in the region, which may adversely affect the price of our Equity Shares. Events of this nature in the future, as well as social and civil unrest within other countries in the World, could influence the Indian economy and could have an adverse effect on the market for securities of Indian companies, including our Equity Shares.

40. Natural disasters and other disruptions could adversely affect the Indian economy and could cause our business and operations to suffer and the trading price of our Equity Shares to decrease.

Our operations, may be damaged or disrupted as a result of natural disasters such as earthquakes, floods, heavy rainfall, epidemics, tsunamis and cyclones and other events such as protests, riots and labour unrest. Such events may lead to the disruption of information systems and telecommunication services for sustained periods. They also may make it difficult or impossible for employees to reach our business locations which could adversely affect our reputation, our relationships with our customers, our senior management team's ability to administer and supervise our business or it may cause us to incur substantial additional expenditure to repair or replace damaged equipment or

rebuild parts of our infrastructure. We may also be liable to our customers for disruption in supply resulting from such damage or destruction. Our insurance coverage for such liability may not be sufficient. Any of the above factors may adversely affect our business, our financial results and the price of our Equity Shares.

41. Any future issuance of the Equity Shares may dilute your future shareholding and sales of the Equity Shares by the Promoters or other major shareholders of our Company may adversely affect the trading price of the Equity Shares.

Any future equity issuances by our Company may lead to dilution of your future shareholding in our Company. Any future equity issuances by our Company or sales of the Equity Shares by the Promoters or other major shareholders of our Company may adversely affect the trading price of the Equity Share. In addition, any perception by investors that such issuances or sales might occur could also affect the trading price of the Equity Share. Except as otherwise stated in the Letter of Offer, there is no restriction on our Company's ability to issue the Securities or the relevant shareholders' ability to dispose of their Equity Share, and there can be no assurance that our Company will not issue Equity Share or that any such shareholder (including Promoters and Promoter Group) will not dispose of, encumber, or pledge its Securities.

42. Inflation in India could have an adverse effect on our profitability and if significant, on our financial condition.

Inflation rates in India have been volatile in recent years, and such volatility may continue in the future. India has experienced high inflation in the recent past. Increased inflation can contribute to an increase in interest rates and increased costs to our business, including increased costs of salaries, and other expenses relevant to our business.

High fluctuations in inflation rates may make it more difficult for us to accurately estimate or control our costs. Any increase in inflation in India can increase our expenses, which we may not be able to pass on to our customers, whether entirely or in part, and the same may adversely affect our business and financial condition. In particular, we might not be able to reduce our costs or increase our rates to pass the increase in costs on to our customers. In such case, our business, results of operations, cash flows and financial condition may be adversely affected.

Further, the GoI has previously initiated economic measures to combat high inflation rates, and it is unclear whether these measures will remain in effect. There can be no assurance that Indian inflation levels will not worsen in the future.

GLOBAL PROSPECTS AND POLICIES

Covering more than 80,000 commercial products, India's chemical industry is extremely diversified and can be broadly classified into bulk chemicals, specialty chemicals, agrochemicals, petrochemicals, polymers, and fertilisers. India is the 6th largest producer of chemicals in the world and 3rd in Asia, contributing 7% to India's GDP. India's chemical sector, which was estimated to be worth US\$ 220 billion in 2022, is anticipated to grow to US\$ 300 billion by 2025 and US\$ 1 trillion by 2040.

Globally, India is the fourth-largest producer of agrochemicals after the United States, Japan and China. India accounts for 16-18% of the world's production of dyestuffs and dye intermediates. India's agrochemicals export was estimated to be at US\$ 3.12 billion from April 2023 to December 2023. Indian colourants industry has emerged as a key player with a global market share of ~15%. The country's chemicals industry is de-licensed, except for a few hazardous chemicals. India has traditionally been a world leader in generics and biosimilars and a major Indian vaccine manufacturer, contributing more than 50% of the global vaccine supply. India holds a strong position in exports and imports of chemicals at a global level and ranks 14th in exports and 8th in imports at the global level (excluding pharmaceuticals).

From April 2023 to December 2023, India's dye exports (Dyes and Dye Intermediates) totalled US\$ 1.69 billion. India's proximity to the Middle East, the world's source of petrochemicals feedstock, enables it to benefit on economies of scale.

Market Size

India's chemical sector, which was estimated to be worth US\$ 220 currently, is anticipated to grow to US\$ 300 billion by 2025 and US\$ 1 trillion by 2040. The demand for chemicals is expected to expand by 9% per annum by 2025.

India has traditionally been a world leader in generics and biosimilars and major Indian vaccine manufacturers, contributing more than 50% of the global vaccine supply. Chemicals and petrochemicals demand in India is expected to nearly triple and reach US\$ 1 trillion by 2040.

An investment of Rs. 8 lakh crore (US\$ 107.38 billion) is estimated in the Indian chemicals and petrochemicals sector by 2025. Specialty chemicals account for 20% of the global chemicals industry's US\$ 4 trillion, with India's market expected to increase at a CAGR of 12% to US\$ 64 billion by 2025.

This gain would be driven by a healthy demand growth (CAGR of 10-20%) in the export/end-user industries. The Department of Chemicals & Petrochemicals intends to bring PLI in the chemical & petrochemical sector and will redraft the Petroleum, Chemicals and Petrochemicals Investment Region (PCPIR) guidelines.

The Indian chemical industry is expected to further grow with a CAGR of 11-12% by 2027, increasing India's share in the global specialty chemicals market to 4% from 3%.

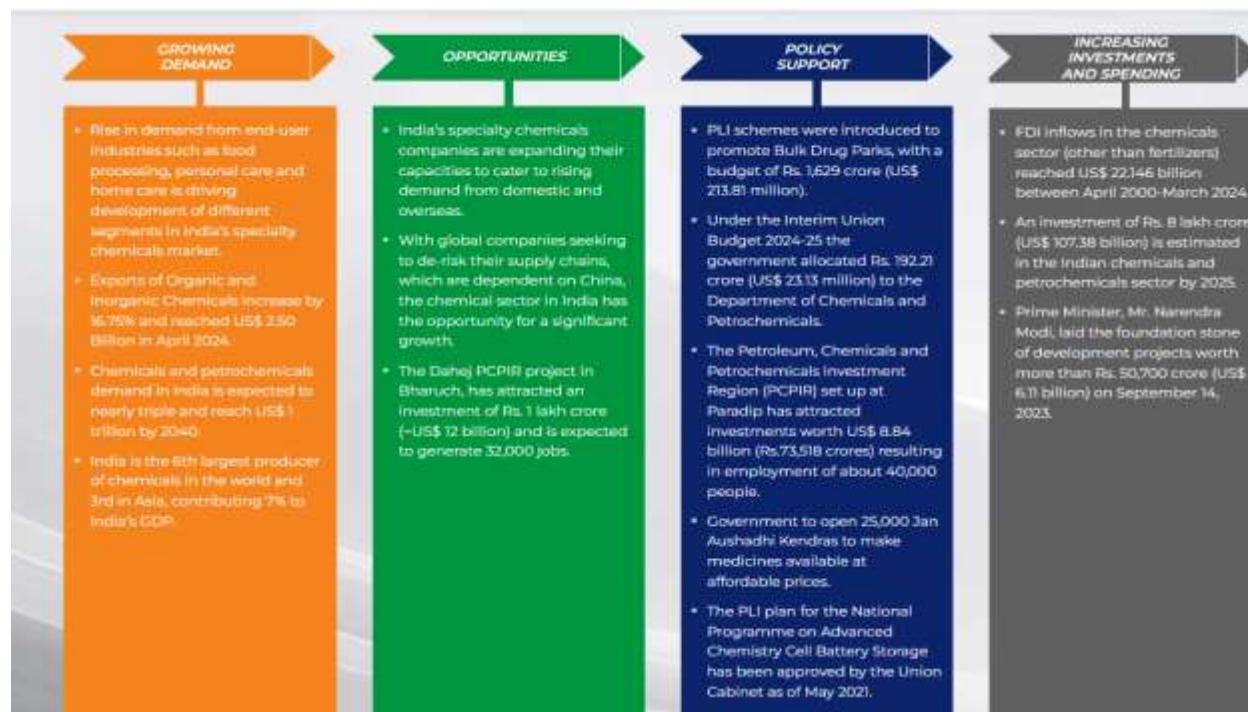

A shift in the global supply chain brought on by the China+1 strategy and a resurgence in domestic end-user demand was expected to fuel significant revenue growth of 18-20% in 2022 and 14-15% in 2023.

India's Warehousing Boom: How Automation Fuels Unprecedented Growth

India's logistics sector is the linchpin in its economy, connecting trade, stimulating economic activity, and nurturing key sectors. The Indian warehouse market is predicted to reach \$34.99 Bn by 2027, with a CAGR of 15.64% from 2022. The market is currently experiencing unprecedented demand, outpacing supply by 1.4 times in the first half of 2023. The country's Grade-A Warehousing stock soared to a staggering 177 Mn sq.ft (3QCY2023), with an additional 140 Mn sq. ft added since CY 2016, highlighting the industry's ability to adapt and expand in response to the growing needs of various sectors.

In the current economic upswing, India's logistics and warehousing industry is fuelled by an e-commerce surge, manufacturing boom, increased consumption, and overall industrial expansion. However, challenges like complex supply chains, inefficiencies, rising costs, and heightened demand for rapid delivery persist. The industry is turning to warehouse automation to address these issues and capitalise on the growth. Embracing automation not only enhances productivity but also reduces labour costs, minimises errors, optimises inventory management, and ensures cost-efficiency, enabling warehouses to handle higher volumes of goods efficiently.

Government initiatives like PM Gati Shakti and the National Logistics policy align with the industry's growth goals, emphasizing technology, standardisation, and digitisation. The surge in manufacturing,

supported by initiatives like Performance Linked Incentives and Make in India, further boosts demand for driving efficiencies in the supply chain and encourages investment in automated facilities. The infrastructure status given by the government to the logistics sector has enhanced its appeal to potential investors, strategically positioning it within the investment landscape. Organised retail growth, SKU expansion, and evolving consumption patterns have also driven the shift from traditional storage to modern warehousing. Pioneers like IndoSpace, alongside global players such as Ascendas, Blackstone, ESR, LOGOS, and Mapletree, are drawn to India's evolving landscape, streamlining supply chains and reducing operational costs through Grade A facilities.

Startups in India are at the forefront of driving innovation in intra-logistics automation solutions. While Addverb Technologies and Falcon Autotech are revolutionising warehousing and assembly lines through their state-of-the-art robots, others are creating AI-powered predictive analytics to improve inventory management.

As the Indian economy accelerates, the logistics and warehousing industry is not only keeping pace but surging ahead, with leading businesses automating warehouse networks for substantial improvements. Some have achieved 20% to 50% better service levels and a 25% to 50% reduction in fulfilment costs, enhancing resilience. DHL's deployment of assisted picking robots, increasing items picked per hour by up to 180%, is a testament to the transformative impact of automation.

In this era where innovation is imperative, warehouse automation becomes the gateway, propelling the industry into a new era of productivity and efficiency. The combined forces of industry growth, government policies, and technological advancements position the logistics sector as a beacon of opportunity, attracting investors. Amid India's ongoing warehousing boom, automation emerges as the driving force behind a once-in-a-lifetime transition, reshaping logistics operations and establishing the sector as dynamic and globally appealing.

ROAD AHEAD

Despite the pandemic situation, the Indian chemical industry has numerous opportunities considering the supply chain disruption in China and the trade conflict between the US, Europe and China. Anti-pollution measures in China will also create opportunities for the Indian chemical industry in specific segments.

Additional support, in terms of fiscal incentives, such as tax breaks and special incentives through PCPIRs or SEZs to encourage downstream units will enhance production and development of the industry. The dedicated integrated manufacturing hubs under the Petroleum, Chemicals and Petrochemicals Investment Regions (PCPIR) policy to attract an investment of Rs. 20 lakh crore (US\$ 276.46 billion) by 2035.

To bring about structural changes in the working of the domestic chemical industry, future investments should not only focus on the transportation of fuels such as petrol and diesel but also on crude-to-chemicals complexes or refineries set up to cater to the production of chemicals.

Our actual results may differ materially from those expressed in or implied by these forward-looking statements. Unless otherwise stated, the financial information used in this section is derived from our Audited Standalone and Limited Review Standalone Financial Statements.

Overview

Our Company was originally incorporated on February 06, 1956 as a public limited company under the name and style of "Indian Extractions Limited" under the provisions of the Companies Act, 1956 with the Registrar of Companies, Maharashtra, Bombay. Subsequently, the name of our Company was changed to "IEL Limited" vide Fresh Certificate of Incorporation dated January 21, 2019. The Company has changed its registered office from the state of Maharashtra to the Gujarat under the order for change of state by the Regional Director vide certificate dated August 04, 2021 with the Registrar of Companies, Ahmedabad. The Corporate Identification Number of the Company is L15140MH1956LC009720.

The Company was operating into the Solvent Extraction Industry, with its manufacturing plant situated at Jamnagar in the Saurashtra region of Gujarat state, which has faced number of difficult years to carry on optimum manufacturing operations. Various factors have contributed to make business operations of the Company unviable.

One of the main such factor was the low availability of groundnuts for the crushing industry and thereby very low availability of De-Oiled Cake for the Solvent Industry. This was due to the fact that the seeds were used more for direct edible purposes as in cocktail.

Besides the low availability of groundnuts for the crushing industry and therefore the Solvent Extraction Industry, the crop size has also reduced significantly on account of farmers preferring to diversify into other crops like cotton. The reason for the same has been the disparity in pricing due to dumping by countries like USA, Brazil & Argentina, which have had bumper crops, and the policy of the government to import refined edible oil from the neighboring countries. This has resulted in our Company's manufacturing capacity being grossly un-utilized, unviable and uneconomical, to face the competition from huge refining capacities set-up by the multinationals by using imported oils. This factor has practically eroded the margins for the domestic Solvent extraction and edible oil industry to which our Company was also not an exception and incurred recurring losses which in turn has forced to exit from the said business.

Hence, due to the un-controllable external factors such as continuous disparity in business, volatility in foreign exchange, low availability of feed stock, un-economical size of capacity, made the operations unviable and hence forced the management to take the decision to exit from its core business of Solvent Extractions and oil refining after more than 55 years in the business.

The management has charted out future plans for the Company post exit from the solvent extraction and refinery business to support sustainable long term business model for the Company and also to protect and enhance shareholders value. Recently the Company has started trading business and now actively considering to diversify into the other business.

Basis for Opinion on the Audited Standalone Financial Results for the year ended March 31, 2024.

We conducted our audit in accordance with the Standards on Auditing ("SAs") specified under Section 143(10) of the Companies Act, 2013 ("the Act"). Our responsibilities under those Standards are further described in paragraph (a) of Auditor's Responsibilities section below. We are independent of the Company in accordance with the Code of Ethics issued by the Institute of Chartered Accountants of India ("the ICAI") together with the ethical requirements that are relevant to our audit of the Standalone Financial Results for the year ended March 31, 2024 under the provisions of the Act and the Rules thereunder, and we have fulfilled our other ethical responsibilities in accordance with these requirements and the ICAI's Code of Ethics. We believe that the audit evidence obtained by us is sufficient and appropriate to provide a basis for our audit opinion.

Management's Responsibilities for the Statement

This Statement which includes the Standalone Financial Results is the responsibility of the Company's Board of Directors and has been approved by them for the issuance. The Standalone Financial Results for the year ended March 31, 2024 has been compiled from the related audited standalone financial statements. This responsibility includes the preparation and presentation of the Standalone Financial Results for the quarter and year ended March 31, 2024 that give a true and fair view of the net profit and other comprehensive income and other financial information in accordance with the recognition and measurement principles laid down in the Indian Accounting Standards prescribed under Section 133 of the Act read with relevant rules issued thereunder and other accounting principles generally accepted in India and in compliance with Regulation 33 of the Listing Regulations. The Board of Directors are also responsible for overseeing the financial reporting process of the Company.

Auditor's Responsibilities

• **Audit of the Standalone Financial Results for the year ended March 31, 2024**

Our objectives are to obtain reasonable assurance about whether the Standalone Financial Results for the year ended March 31, 2024 as a whole is free from material misstatement,

208, Chanakya Complex,
Behind Sales India, Income Tax,
Ashram Road, Ahmedabad-380 009.
9913610325 | carushabhrshah@gmail.com

whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with SAs will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of this Standalone Financial Results.

As part of an audit in accordance with SAs, we exercise professional judgment and maintain professional scepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the Annual Standalone Financial Results, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Company's internal control.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates made by the Board of Directors.
- Evaluate the appropriateness and reasonableness of disclosures made by the Board of Directors in terms of the requirements specified under Regulation 33 of the Listing Regulations.
- Conclude on the appropriateness of the Board of Directors' use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the ability of the Company to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the Statement or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Company to cease to continue as a going concern.
- Evaluate the overall presentation, structure and content of the Annual Standalone Financial Results, including the disclosures, and whether the Annual Standalone Financial Results represent the underlying transactions and events in a manner that achieves fair presentation.

Materiality is the magnitude of misstatements in the Annual Standalone Financial Results that, individually or in aggregate, makes it probable that the economic decisions of a reasonably knowledgeable user of the Annual Standalone Financial Results may be influenced. We consider quantitative materiality and qualitative factors (i) in planning the scope of our audit work and in evaluating the results of our work; and (ii) to evaluate the effect of any identified misstatements in the Annual Standalone Financial Results.

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings including any significant deficiencies in internal control that we identify during our audit.

208, Chanakya Complex,
Behind Sales India, Income Tax,
Ashram Road, Ahmedabad-380 009.
9913610325 | carushabhrshah@gmail.com

We also provide those charged with governance with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, related safeguards.

- **Review of the Standalone Financial Results for the quarter ended March 31, 2024**

We conducted our review of the Standalone Financial Results for the quarter ended March 31, 2024 in accordance with the Standard on Review Engagements ("SRE") 2410 'Review of Interim Financial Information Performed by the Independent Auditor of the Entity', issued by the ICAI. A review of interim financial information consists of making inquiries, primarily of the Company's personnel responsible for financial and accounting matters, and applying analytical and other review procedures. A review is substantially less in scope than an audit conducted in accordance with SAs specified under section 143(10) of the Act and consequently does not enable us to obtain assurance that we would become aware of all significant matters that might be identified in an audit. Accordingly, we do not express an audit opinion.

Other Matter

- The Statement includes the results for the Quarter ended March 31, 2024 being the balancing figure between audited figures in respect of the full financial year and the published year to date figures up to the third quarter of the current financial year which were subject to limited review by us. Our report on the Statement is not modified in respect of this matter.

Business overview

Our Company was originally incorporated on February 06, 1956 as a public limited company under the name and style of "Indian Extractions Limited" under the provisions of the Companies Act, 1956 with the Registrar of Companies, Maharashtra, Bombay. Subsequently, the name of our Company was changed to "IEL Limited" vide Fresh Certificate of Incorporation dated January 21, 2019. The Company has changed its registered office from the state of Maharashtra to the Gujarat under the order for change of state by the Regional Director vide certificate dated August 04, 2021 with the Registrar of Companies, Ahmedabad. The Corporate Identification Number of the Company is L15140MH1956LC009720.

The Company was operating into the Solvent Extraction Industry, with its manufacturing plant situated at Jamnagar in the Saurashtra region of Gujarat state, which has faced number of difficult years to carry on optimum manufacturing operations. Various factors have contributed to make business operations of the Company unviable.

One of the main such factor was the low availability of groundnuts for the crushing industry and thereby very low availability of De-Oiled Cake for the Solvent Industry. This was due to the fact that the seeds were used more for direct edible purposes as in cocktail.

Besides the low availability of groundnuts for the crushing industry and therefore the Solvent Extraction Industry, the crop size has also reduced significantly on account of farmers preferring to diversify into other crops like cotton. The reason for the same has been the disparity in pricing due to dumping by countries like USA, Brazil & Argentina, which have had bumper crops, and the policy of the government to import refined edible oil from the neighboring countries. This has resulted in our Company's manufacturing capacity being grossly un-utilized, unviable and uneconomical, to face the competition from huge refining capacities set-up by the multinationals by using imported oils. This factor has

IEL LIMITED
(CIN-L15140GJ1956PLC124644)

practically eroded the margins for the domestic Solvent extraction and edible oil industry to which our Company was also not an exception and incurred recurring losses which in turn has forced to exit from the said business.

Hence, due to the un-controllable external factors such as continuous disparity in business, volatility in foreign exchange, low availability of feed stock, un-economical size of capacity, made the operations unviable and hence forced the management to take the decision to exit from its core business of Solvent Extractions and oil refining after more than 55 years in the business.

The management has charted out future plans for the Company post exit from the solvent extraction and refinery business to support sustainable long term business model for the Company and also to protect and enhance shareholders value. Recently the Company has started trading business and now actively considering to diversify into the other business.

RESTRICTIONS ON FOREIGN OWNERSHIP OF INDIAN SECURITIES

Foreign investment in Indian securities is regulated through the Industrial Policy, 1991, of the Government of India and FEMA. While the Industrial Policy, 1991, of the Government of India, prescribes the limits and the conditions subject to which foreign investment can be made in different sectors of the Indian economy, FEMA regulates the precise manner in which such investment may be made. The Union Cabinet, as provided in the Cabinet Press Release dated May 24, 2017, has given its approval for phasing out the FIPB. Under the Industrial Policy, 1991, unless specifically restricted, foreign investment is freely permitted in all sectors of the Indian economy up to any extent and without any prior approvals, but the foreign investor is required to follow certain prescribed procedures for making such investment. Accordingly, the process for foreign direct investment ("FDI") and approval from the Government of India will now be handled by the concerned ministries or departments, in consultation with the Department for Promotion of Industry and Internal Trade, Ministry of Commerce and Industry, Government of India (formerly known as the Department of Industrial Policy and Promotion) ("DPIIT"), Ministry of Finance, Department of Economic Affairs, FIPB section, through a memorandum dated June 5, 2017, has notified the specific ministries handling relevant sectors.

The Government has, from time to time, made policy pronouncements on FDI through press notes and press releases. The DPIIT issued the Consolidated FDI Policy Circular of 2020 ("**FDI Circular 2020**"), which, with effect from October 15, 2020, consolidated and superseded all previous press notes, press releases and clarifications on FDI issued by the DPIIT that were in force and effect as on October 15, 2020. The Government proposes to update the consolidated circular on FDI policy once every year and therefore, FDI Circular 2020 will be valid until the DPIIT issues an updated circular.

The Government of India has from time to time made policy pronouncements on FDI through press notes and press releases which are notified by RBI as amendments to FEMA. In case of any conflict, the relevant notification under Foreign Exchange Management (Non-Debt Instruments) Rules, 2019 will prevail. The payment of inward remittance and reporting requirements are stipulated under the Foreign Exchange Management (Mode of Payment and Reporting of Non-Debt Instruments) Regulations, 2019 issued by RBI. The FDI Circular 2020, issued by the DPIIT, consolidates the policy framework in place as on October 15, 2020, and supersedes all previous press notes, press releases and clarifications on FDI issued by the DPIIT that were in force and effect as on October 15, 2020.

The transfer of shares between an Indian resident and a non-resident does not require the prior approval of RBI, provided that (i) the activities of the investee company fall under the automatic route as provided in the FDI Policy and FEMA and transfer does not attract the provisions of the Takeover Regulations; (ii) the non-resident shareholding is within the sectorial limits under the FDI Policy; and (iii) the pricing is in accordance with the guidelines prescribed by SEBI and RBI.

No investment under the FDI route (i.e. any investment which would result in the investor holding 10% or more of the fully diluted paid-up equity share capital of the Company or any FDI investment for which an approval from the government was taken in the past) will be allowed in the Issue unless such application is accompanied with necessary approval or covered under a pre-existing approval from the government. It will be the sole responsibility of the investors to ensure that the necessary approval or the pre-existing approval from the government is valid in order to make any investment in the Issue. Our Company will not be responsible for any allotments made by relying on such approvals.
